Subject RE: CHANGE IN BRIDGE LINE & CALL IN NUMBER!!!

Your Honor: Verizon's primary witness will be Kathleen McLean, Senior Vice President. In addition, given Verizon's inability to determine the content of the direct testimony of the complaining parties, other subject matter experts may be available as required.

NUMBER!!!

PM

I heard yesterday from Heather Hendrickson and Brooks Harlow that they plan to offer as witnesses the following persons: Dan Wigger, Vice President of Engineering and Network Operations of Advanced TelCom, Inc., and Michael Daughtry, Vice President of Operations for United Communications, Inc. d/b/a UNICOM. They also indicated that Covad will not be presenting a witness.

I have not yet heard from Verizon as to their witnesses.

Judge -- have all the parties identified their witnesses? I haven't received those e-mails, if they have.

THANK YOU!! I have just been informed that we will be switching conference bridge lines for the two hearings. Anyone calling in for the Verizon arbitration hearing this afternoon should call in on the Commission's usual conference bridge line: 360-664-3846.

Thank you again for your cooperation!

Line

MCI will present the testimony of Sherry Lichtenberg. MCI also will have Kevin Seivert available to answer questions and to present rebuttal testimony, if necessary.

Subject: RE: Request re: Ports for Bridge Line

Thank you. Since I sent out the e-mail this morning, I have been advised that our existing conference bridge accomodates up to 23 ports, so please disregard the request to consolidate ports. The Commission may use its own conference bridge for the hearing in this proceeding . If so, I will advise all parties of the changed call in number as soon as the decision is made. Thank you all for your patience.

son@mci.com RE: Request re: Ports for Bridge  
Line

The MCI personnel are in separate locations so we cannot use one port.

Subject: Request re: Ports for Bridge Line

In order to better coordinate the bridge lines for the hearing in this docket as well as the other hearing scheduled before the commission today, is there any possibility that parties and witnesses might be able to consolidate or use the same port via a speaker phone? Please let me know as soon as possible. Thank you.
