STATE: Washington  
DOCKET NO: Docket No. UT-003022 and UT-003040  
CASE DESCRIPTION: In the Matter of the Investigation into U S WEST's  
Compliance with Section 271  
INTERVENOR: Bench Requests  
REQUEST NO: BCH INF-010-060

REQUEST:

With respect to the two documents filed with the Commission on June 12, 2002, describing Qwest's operational criteria for determining whether to build retail facilities, please identify the date on which the documents were prepared, the effective date of the documents, who prepared the documents, who maintains the documents within Qwest, and how often the documents are updated.

RESPONSE:

These documents were excerpted from larger documents that encompass more than just operational criteria. Thus, these specific documents were created on June 11 for purposes of the filing. However, the underlying documents are dated and effective February 25, 2002 for Attachment A (SNRE), and December 3, 2001 for Attachment B (AQCB). The documents are prepared and maintained by the outside plant engineering staff in the Network organization in Qwest. The documents are updated as needed to reflect changes in policy, process, or regulatory or other external requirements.
