RE: Tariff Submittal, Tariff Number 26, Original Tariff, American Disposal Co., Inc. G-87. Please Do Not Re-docket TG-130402.

Dear Mr. King:

Attached please find revised pages for American Disposal, Tariff Number 26.

Initially, during our general rate filing in 2009 for American Disposal, we were advised by audit staff to run individual Lurito-Gallagher ("L-G") returns for each line of service. Then again, during our 2010 general rate filing for American the same rule was applied. However, working with staff on a recent filing in late 2012 for another company, we were instead informed that for the purposes of the L-G calculation for solid waste (meaning packer and roll-off routes), those services must be combined and similarly, residential and multi-family recycling services calculations must also be combined.

Therefore, we have revised our current filing to comply with this approach. Following this revised methodology changed the percentage of increase among the existing lines of service, but did not change the revenue requirement for the company in total. We are now thus submitting a revised pro forma with recalculated schedules for the L-G-garbage, L-G-recycling, and revised price-out and rate schedule. We are also updating the tariff pages and the customer letters to reflect these changes in percentage increase amounts. On the pro forma, the changed schedule tabs have been background highlighted to alleviate any confusion.

The rate increase notification letter, with the revised rates, will be mailed to our customers no later than March 30, 2013.

If you have any questions regarding these changes, please do not hesitate to contact me at (360) 832-8749 or via email at irmgardw@wcnx.org.

Sincerely,
Irmgard R Wilcox
