Good day Sir

This email is in response to the allegations against Sea Tac Nationwide Movers LLC. First I want to state that at no point have we offered full service moving. We in 2 circumstance offered customers an option to get a truck via a 3rd party available at the rate stated. They offer truck rental WE ARE SOLELY A MOVING COMPANY providing Labor only services. Both people came off as fragile and disabled and needing helped and we offered help. It is not a status quo and by no means our business plan or model.

Lastly please see attached a copy of check mailed last year for final payment which we are being falsely accused of never paying. I feel there might be some bias possibly racist tensions towards us and I am writing to assure you that while an intent to file a full service application with the state Is now in progress, We have not deliberately violated this honorable office cease n desist order.

I have FULLY informed all parties involved and there will be no more offers to 3rd party truck rentals. We WERE TOLD WE COULDNT OFFER TRUCKS WHICH WE DONT AND HAVENT SINCE THE ORDER. We didn't know we couldn't send people to 3rd parties and companies such as Uhaul. Kindly accept this sincere apology.

Lastly if truly payment wasn't received I am happy to request the bank to cancel said check[copy attached to this email] and I will remit payment in full but I know for a fact that I mailed it out and a little bothered all but this one were received which is another we feel targeted.

thank you for you always fair judgment. If indeed this was a violation kindly tender judgement with mercy. The application for full service will be turned in first week of January and as stated we will not be engaging in any illegal moves. And no trucks will be offered or recommended. Thank you Sir

God bless and happy new year.

James
