Rate Increase Notice

January 15, 2021

Dear Valued Customer,

Waste Management is pleased to be your solid waste services collection provider. We value your business and welcome your feedback on our services.

Like all of us, the garbage industry is faced with many challenges today. Rising costs for processing yard waste and recyclables and labor and maintenance expenses have resulted in increased costs for us to provide collection services. Many of the above-mentioned costs have risen considerably since our last general rate increase more than six years ago in June 2014. Accordingly, we have applied for a change in rates, subject to the review and approval of the Washington Utilities and Transportation Commission (UTC). These proposed rates are shown on the back of this notice. If approved, the new rates would become effective February 15, 2021.

The UTC has the authority to set final rates, depending on the outcome of its investigation. You can submit a comment to the UTC by using the online comment form at <https://www.utc.wa.gov/comment>, via email at comments@utc.wa.gov, or by using the contact information below to write or call. Please include your name, mailing address, the name of the company (Waste Management), and a description of this filing.

Commission staff will make a recommendation to the commissioners at a virtual open meeting, which is scheduled for 9:30 a.m. on February 11, 2021. If you choose to do so, you will have an opportunity to comment at this meeting by calling 1 (360) 407-3810 and entering conference ID: 648699, or via the Skype Meeting Application at the following link <https://lync.wa.gov/utc.wa.gov/meet/omeeting/4YJ5Z17S>. We appreciate your patience as we adjust to these market conditions. The industry is working to meet the new quality demands while keeping costs down. We apologize for any confusion or inconvenience this has caused.

As a valued customer, you can help reduce contamination in your recycling cart by:

- Recycling the right things—when in doubt, throw it out
- Sort plastics by the shape—ignore numbers and symbols
- Ensure all recyclables are clean, dry, empty, and loose

If you have questions or need additional information about the proposal please contact us as your convenience by email pnwrsservices@wm.com, chat with a representative by visiting www.wm.com or call our customer service team at 1-800-592-9995.

Thank you for your business.
