

**BEFORE THE WASHINGTON
UTILITIES AND TRANSPORTATION COMMISSION**

In the Matter of

PACIFICORP d/b/a PACIFIC POWER
& LIGHT COMPANY,

Renewable Energy Target Progress
Report under RCW 19.285.070 and WAC
480-109-210

DOCKET UE-240405

ORDER 01

APPROVING COMPLIANCE WITH
ELIGIBLE RENEWABLE ENERGY
TARGET REPORTING
REQUIREMENTS FOR 2024

BACKGROUND

- 1 The Energy Independence Act (EIA or Act)¹ requires qualifying electric utilities to obtain certain percentages of their electricity from eligible renewable resources. The Washington Utilities and Transportation Commission (Commission) enforces compliance with the EIA by investor-owned utilities.² Ultimately, the Commission must determine “whether the utility has generated, acquired or arranged to acquire enough renewable energy credits or qualifying generation to comply with its renewable resource target.”³
- 2 The Commission has implemented these requirements by establishing a two-step compliance process.⁴ Because a utility may comply with its renewable portfolio standards (RPS) obligation by using renewable energy credits (RECs) acquired in the year after the target year, ultimate compliance for 2024, for example, may be demonstrated as late as June 1, 2026. Accordingly, there will be two Commission decisions for each year’s compliance: (1) a determination that the Company has enough resources to meet the 15 percent target; and (2) the retrospective compliance decision.
- 3 The filing before the Commission in this Docket is the initial resource-adequacy filing made by PacifiCorp d/b/a Pacific Power & Light Company (PacifiCorp or Company) for its 2024, obligation. The Commission will consider PacifiCorp’s compliance with its 2024 target when PacifiCorp requests such a finding. Consistent with the requirements of WAC 480-109- 210(6), the Company must make this request through a filing in this Docket no later than June 1, 2026.

¹ Chapter 19.285 RCW.

² RCW 19.285.060(6).

³ WAC 480-109-210(3)(b).

⁴ WAC 480-109-210(1) and (6).

4 On May 30, 2024, PacifiCorp filed with the Commission its 2024 Annual Renewable Portfolio Standard Report (RPS Report), which identified a 2024 target of 623,495 megawatt-hours (MWh).⁵ Table 1, below, summarizes PacifiCorp’s 2024 target and the total amount of resources that the Company had acquired by January 1, 2024:

Table 1: PacifiCorp’s 2024 Renewable Resource Target and Compliance Plan

2024 Target (MWh)	Hydro	Solar	Wind	Geothermal	Total Eligible Resources (MWh)
	RPS Compliance Resources (MWh)				
623,495	1,530	92,227	760,953	20,813	875,523

5 PacifiCorp seeks an order from the Commission confirming that the Company has complied with the Commission’s EIA reporting requirements, accepting the Company’s calculations and eligibility of the renewable resources identified in the RPS Report for 2024.

6 On June 18, 2024, the Commission issued a Notice inviting interested persons to file written comments on PacifiCorp’s RPS Report. During the comment period, no comments were received.

7 Based on the information that the Company provided in its RPS Report and supplemental filing, Staff believes that PacifiCorp correctly calculated its 2024 RPS target, and that it has acquired sufficient resources to exceed that target.

8 Staff recommends that the Commission issue an order in this Docket determining that:

- (1) PacifiCorp’s 2024 renewable energy target is 623,495 MWh.
- (2) PacifiCorp has demonstrated that, by January 1, 2024, it acquired 875,523 MWh of eligible renewable resources sufficient to supply 15 percent of its load for 2024.
- (3) PacifiCorp has complied with the June 1, 2024, reporting requirements pursuant to WAC 480-109-210.

⁵ PacifiCorp filed two revisions for the 2024 Renewable Portfolio Standard Report to address errors in the average retail sales calculation, as well as minor typographical errors. These changes were minor and did not alter Staff’s assessment.

DISCUSSION

9 The Commission accepts PacifiCorp’s calculation of 623,495 MWh as the Company’s renewable energy target for 2024 and determines that PacifiCorp has identified sufficient resources to be able to meet that target. The Commission will make its final determination about whether PacifiCorp has met its 2024 target when the Company requests such a finding, no later than June 1, 2026. To assist Staff with determining whether PacifiCorp’s resources meet EIA eligibility requirements, PacifiCorp must provide details about which certificates were used for its various renewable energy programs, as required by WAC 480-109-210(2)(d)(i), in its final compliance report for 2024.

FINDINGS AND CONCLUSIONS

- 10 (1) The Commission is an agency of the State of Washington vested by statute with the authority to regulate the rates, rules, regulations, practices, accounts, securities, transfers of property and affiliated interests of public service companies, including electric companies.
- 11 (2) PacifiCorp is a public service company subject to Commission jurisdiction.
- 12 (3) PacifiCorp serves more than 25,000 customers within the State of Washington and is a “qualifying utility” within the meaning of RCW 19.285.030(19).
- 13 (4) PacifiCorp has properly calculated its renewable energy target for 2024 to be 623,495 MWh.
- 14 (5) By January 1, 2024, PacifiCorp had acquired sufficient eligible renewable resources to supply at least 15 percent of its load for the remainder of 2024.
- 15 (6) PacifiCorp has met the reporting requirements of RCW 19.285.070 and WAC 480-109-210. These reporting requirements include PacifiCorp’s plan for meeting its RPS obligation for the remainder of 2024.
- 16 (7) Pursuant to WAC 480-109-210(4), PacifiCorp must post and maintain all RPS Reports on its website, and provide a report to any person on request, within 30 days of the date of this Order.
- 17 (8) Pursuant to WAC 480-109-210(5), PacifiCorp must provide a summary of its RPS Report to its customers, by bill insert or other suitable method, within 90 days of the date of this Order.

- 18 (9) Pursuant to WAC 480-109-210(6), PacifiCorp must file a report no later than June 1, 2026, that lists certificate numbers in Western Renewable Energy Generation Information System for every megawatt-hour and renewable energy credit that PacifiCorp retired to meet the January 1, 2024, target.
- 19 (10) This matter came before the Commission at its regularly scheduled meeting on August 29, 2024.
- 20 (11) After reviewing PacifiCorp's Petition and RPS Report and giving due consideration to all relevant matters and for good cause shown, the Commission accepts PacifiCorp's calculation of 623,495 MWh as the Company's renewable energy target for 2024 and adopts Staff's recommendations as set forth in paragraph 9 of this Order.

ORDER

THE COMMISSION ORDERS:

- 21 (1) The Commission accepts the calculation of 623,495 MWh as the 2024 renewable energy target for PacifiCorp d/b/a Pacific Power & Light Company.
- 22 (2) PacifiCorp d/b/a Pacific Power & Light Company has identified eligible renewable resources sufficient to supply at least 15 percent of its load for 2024.
- 23 (3) PacifiCorp d/b/a Pacific Power & Light Company has complied with the June 1, 2024, reporting requirements pursuant to WAC 480-109-210.
- 24 (4) PacifiCorp d/b/a Pacific Power & Light Company final compliance report must list certificate numbers for every renewable energy credit that PacifiCorp d/b/a Pacific Power & Light Company retired in the Western Renewable Energy Generation Information System and details about which certificates were used for its voluntary renewable energy programs in 2024.

The Commissioners, having determined this Order to be consistent with the public interest, directed the Secretary to enter this Order.

DATED at Lacey, Washington, and effective August 29, 2024.

WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION

Jeff Killip
Executive Director and Secretary
