RE: Compliance Item as listed in Order
Docket UW-161155 – General Rate Case

Dear Mr. King:

Commission Staff reviewed the compliance filing of Iliad Water Company, LLC dated May 9, 2017. Staff review of the order noted that the Company was to add the 13 water systems to its current tariff within 60 days of that filing becoming effective. The Company made the filing within the time line under Docket UW-170351. Staff requested the Company provide documents to establish ownership of the 13 water systems and a copy of the customer notice stating the water systems were transferred, and that Iliad Water Company, LLC, was a regulated water company. The Company replied with a copy of the bill of sale for the 13 water systems and a copy of the customer notice about the transfer and merger.

Staff believes that the filing fully complies with the Commission's Order 02, paragraph (3) of Docket UW-161155, entered March 9, 2017.

Sincerely,

Jim Ward, Lead Staff
