**Think of us for all your moving needs.**

Permit #hg60330

**Application for mitigation of penalties**

Dear commission on behalf of advance relocation experts I am asking the commission to please wave some of this fines before a final order is set I have sent to the department of licensing with my annual renewal requesting name change to match what I have printed on fliers bills of lading estimate forms etc,

I will notify the commission as soon as that is granted with a proof of name adjustment together with a request for a name change with the commission, I have also ordered for a reprint of all paperwork to reflect the accurate name and the remark section printed on all bills of lading estimate sheets, a copy of each will be sent to the commission as soon as they are ready along with the name change request and I will also include any bills of lading starting as of January of this year but unfortunately I have been very slow and been working part time to survive this winter but as soon as I have jobs lined up I will fill them out, and charge as commission permits I hope the commission re evaluate this charges and please reduce some of it because a fine as high as \$1900 will close me down write now for good ,thanks for help and co-operation.
