BEFORE THE WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION

**Dockets UE-190529 & UG-190530
Puget Sound Energy
2019 General Rate Case**

WUTC STAFF DATA REQUEST NO. 225:

Relative to the fixed and variable coal fuel expense currently in the company's rate case, quantify the anticipated and/or planned increase(s) in costs associated with the new and/or anticipated contract and quantify any anticipated and/or planned capital costs associated with the new contract.

Response:

Puget Sound Energy ("PSE") estimates that the coal fuel costs associated with Colstrip would increase by approximately ■■■ million over the amounts included in PSE's proposed power costs in this proceeding, if the terms presented in Attachment A to PSE's Response to WUTC Staff Data Request No. 223 are finalized. There would be no separate capital costs associated with the anticipated new contract.

Shaded information is designated as CONFIDENTIAL per Protective Order in Dockets UE-190529 and UG-190530 as marked in PSE's Response to WUTC Staff Data Request No. 225.
