**RE: Docket UE-001734—Report on Costs Associated with Permanent Disconnection and Removal of Facilities**

PacifiCorp dba Pacific Power & Light Company (PacifiCorp) annually reports on costs associated with Permanent Disconnection and Removal of Facilities. For the period of January 1, 2021, through December 31, 2021, there were no requests and therefore no costs. This report has been provided annually since the conclusion of Docket UE-001734. However, 2021 was the first year for which there were no requests.

When there are requests, the reporting provides a comprehensive summary of the cost associated with removing facilities when a customer requests permanent disconnection of service and PacifiCorp’s facilities to provide service are not likely to be re-used at that location. The report also details which facilities require removal for safety or operational reasons.

If you have any questions or require further information, please contact me at (503) 813-5136.

Sincerely,

\_\_\_\_\_/s/
