Attn: Cheryl A Zakrzewski, Assistant City Attorney

**Subject: Wrapped Steel Services Assessment Program Risk Model Results (Docket PG-041624)**

Dear Ms. Zakrzewski,

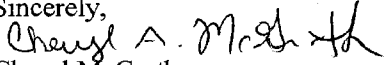

Pursuant to Docket PG-041624 (Wrapped Steel Services Assessment Program Second Settlement Agreement), Puget Sound Energy (PSE) is providing you the results of the 2012 risk model run for those services within the City of Bellevue. The attached table summarizes the population of services within each mitigation category based upon the risk results.

There are 9 services that fall within the Priority Replacement mitigation category and 9 that fall within the Scheduled Replacement mitigation category based upon the 2012 model run. PSE is targeting to have the Priority Replacement services replaced by December 31, 2013 and the Scheduled Replacement services replaced by December 31, 2014.

The 2012 population reflects a net decrease in the total number of services. This net decrease and the changes in the number of services in each mitigation category are due to replacement through this program, replacement through normal operation and maintenance activities, and refinement of model data.

If you have any questions, please call me at 425-462-3207.

Sincerely,

  
Cheryl McGrath
