## rate increase for Puget Sound Energy

---

Hello rate commission,

I am opposed to the rate increase because:

1. Recent rate increase
2. some of the activities listed should be address already by the lands commissioner
3. Slow down the rush to use inefficient "green" energies such as wind turbines:  
use fossil fuel sources until the "green" energy engineering and production ability  
prove as economic as current fossil fuels

S J Brown
