Subject: PSE requests a 12.9 percent rate increase

Hello All,

I'm a retired senior living in Bellevue since 1967. For the past 47 years in same home, I hope to be able to stay here my remaining years.

I stayed employed until I was 71 in 2015 realizing the consequences of inflation, fortunately I really enjoyed my job. With all the amazing medical we have now more of us are living longer and every bill that goes up even \$8 to \$10 a month each year becomes more difficult for us.

PSE has always been a good company to deal with and supported us well, I do understand their cost go up also.

Any consideration for us seniors will be appreciated.

Respectfully,
Bob Johnson
