

DOCKET TR-070696  
PREFILED REBUTTAL TESTIMONY OF MEGAN McINTYRE

“EXHIBIT 1”

BNSF VIDEOS

DESCRIPTION: BNSF anticipates showing two or three brief videos of drivers ignoring warning devices or trying to beat gates at crossings like Hickox (involving ~~both siding and mainline~~ more than one set of tracks). The videos can only be played using proprietary software on BNSF laptop computers, so BNSF will be able to show all parties before the evidentiary hearing in this case but cannot attach a copy here. Although the videos show drivers ignoring warning devices, they do not depict ~~any collisions or~~ graphic material.
