

Graciela:

Jim Russell's characterization of Avista's position is correct.

We would have no trouble if (and in fact would prefer) the Commission to take up this issue now and not defer two weeks.

Subject: Conference bridge today

Bruce and Carole,

Unfortunately, because of the remodeling that is taking place in the hearing room, the conference bridge is not totally functional. You will be able to listen but you will not be able to talk. I apologize for the inconvenience. I have just found this out.

Graciela
