Subject: PSE rate increase

[EXTERNAL]

I am against the PSE rate increase. It is always going up, cities are taxing more, there's more hidden fees because of the climate commitment act. It's all a bunch of nonsense, ends up, hurting the customer at the end of the day. You send us messages to reduce our electricity, then want to charge us more for it...

And then I look at my electricity mix and it's coal and Hydro electric. And I'm being told to use more electricity all the time for my car, etc....

What a joke. I oppose these rate increases.
