4 The Energy Project works with Community Action Agencies that provide rate assistance and energy efficiency programs for PSE’s low-income electric and natural gas customers. The Energy Project also works generally with utilities and other stakeholders to develop and expand rate assistance and energy efficiency programs for low-income customers and vulnerable populations in Washington. The Energy Project is a frequent party in general rate cases and other significant dockets before the UTC involving Washington investor-owned utilities when energy affordability, energy efficiency, and customer service policies are at issue. The Energy Project has participated actively and filed comments in the pre-adjudication phase of this docket and is currently a party to PSE’s multiyear rate plan in Dockets UE-220066/UG-220067.

5 The Energy Project has concerns regarding the impact on PSE’s low-income customers and programs of PSE’s Clean Energy Implementation Plan as filed, including the scope and content of the proposed Customer Benefit Indicators and Specific Actions.

6 The Energy Project has a direct and substantial interest in PSE’s filing in this docket and no other party will adequately represent those interests. The Energy Project’s intervention will not unreasonably broaden the issues, burden the record, or delay the proceeding. Accordingly, it is in the public interest to allow The Energy Project to intervene in this docket.

7 For the foregoing reasons, The Energy Project respectfully petitions the Commission for
leave to intervene in this proceeding.
