**NOTICE OF CORRECTIONS TO HOUSEHOLD GOODS TARIFF 15-C**

RE: *Correction to Rate Examples and Page Revision Numbers for Household Goods Tariff 15-C  
Item 201, Docket TV-151474 and Item 200, Docket TV-160432*

TO ALL PARTIES:

On October 6, 2016, the Washington Utilities and Transportation Commission (Commission) approved revised rates for Item 201-Mileage Rates For Shipments Using Storage-in-Transit in Docket TV-151474. On October 28, 2016, the Commission approved revised rates for Item 200-Mileage Rates in Docket TV-160432. It came to the Commission's attention that Items 200 and 201 contain errors. The Notice corrects the following errors:

1. **Item 200:** The example on page 41 demonstrating how to calculate mileage rates was not updated consistent with the revised rates. The rates used in the example and the Tariff revision number have been corrected.
2. **Item 201:** The example on page 46 demonstrating how to calculate shipments using storage-in-transit was not updated consistent with the revised rates. The rates used in the example and the Tariff revision number have been corrected.
