Details

Comments As to investor-owned utilities like PGE implementing "advanced metering"/AMI/"smart' meters in Washington State: 1) The WUTC needs to rule that they need to perform due diligence into surveillance/fire hazard/overbilling/health effects before doing so; 2) If doing so, they need to offer "opt-in" instead of the extortion of exorbitant "opt-outs; 3) This rule making needs further time for public comment, as none of the major citizen groups dealing with the issue of "smart" utility meters has been notified of the comments deadline of today, March 8, or of the March 15 workshop at your headquarters.
