**WALMART DATA REQUEST NO. 004**

**WALMART DATA REQUEST NO. 004:**

Please provide the detail for how PSE arrived at the eligibility criteria that "all Schedule 451 Customers may not exceed 100 megawatts at any one time," including all worksheets and data.

**Response:**

The decision to limit availability of service under the proposed Schedule 451 to the first 100 megawatts was a business decision of Puget Sound Energy's senior management. It is an amount sufficient to allow all of Microsoft's load currently served under Schedule 40 to take service under the proposed Schedule 451 and provide headroom for a limited number of additional customers to also take service under this proposed schedule.
