Attn: Cheryl A Zakrzewski, Assistant City Attorney

**Subject: Wrapped Steel Services Assessment Program Risk Model Results
(Docket PG-041624)**

Dear Ms. Zakrzewski,

Pursuant to Docket PG-041624 (Wrapped Steel Services Assessment Program Second Settlement Agreement), Puget Sound Energy (PSE) is providing you the results of the 2014 risk model run for those services within the City of Bellevue. The attached table summarizes the population of services within each mitigation category based upon the risk results.

There is one (1) service that falls within the Priority Replacement mitigation category and 12 that fall within the Scheduled Replacement mitigation category based upon the 2014 model run. PSE is targeting to have the Priority Replacement service replaced by December 31, 2015.

The 2014 population reflects a net increase in the total number of services. This net increase is due to ongoing refinement of model data.

PSE appreciates the opportunity to continue to work with the City of Bellevue on this program. Should you have any additional questions, please call me at (425) 462-3923.

Sincerely,

Stephanie Silva
