**ERRATA TO ORDER 08**

RE: *Washington Utilities and Transportation Commission v. Puget Sound Energy*  
Dockets UE-170033 and UG-170034 (*Consolidated*)

TO ALL PARTIES:

On December 5, 2017, the Washington Utilities and Transportation Commission (Commission) entered its final order, Order 08, in the above-referenced dockets. It came to the Commission's attention that Order 08 contained two errors. This errata notes and corrects the following errors:

- 1. The last sentence in paragraph 341 inadvertently misstated PSE's proposal with respect to Schedule 449. Accordingly, the last two sentences of paragraph 341 are modified as follows:**

PSE proposes that all other schedules not included in the Settlement Agreement, other than Schedules 448 and 449, receive the adjusted average rate increase. PSE proposes that for Power Supplier Choice and Retail Wheeling Service (Schedules 448 and 449) the basic charge should be set at its cost of service and the existing per kVA charges should be eliminated.

- 2. Paragraph 395 inadvertently omitted a reference to non-residential demand charges. Accordingly, paragraph 395 is modified as follows:**

PSE's proposed changes to the non-residential demand charges and procurement charges, as discussed above, are uncontested and supported by the record. We determine they should be approved.
