

1 **proposal for recovering the cost of offering the on-bill repayment or financing program?**

2 A. No, it is not. As mentioned, the Company worked with its EEAG to develop
3 the on-bill repayment program and presented the cost estimates to the EEAG to offer such a
4 program, including the Company's proposal for cost recovery within tariff Schedules 91 and
5 191. To our knowledge, no members of the EEAG or other parties oppose the Company's
6 proposal.

7 **Q. Does this conclude your rebuttal testimony?**

8 A. Yes.
