**Re: Multi-Year Rate Plan Metrics Compliance Filing
Dockets UE-220066, UG-220067, and UE-210918**

Dear Ms. Maxwell:

As a follow-up to Puget Sound Energy's ("PSE") March 31, 2023 Annual Report filing ("Annual Report") in the above-referenced dockets, attached please find the 2022 data previously-missing from Attachment A and other agreed-upon changes, as mentioned on page 11 of the Annual Report. The information being provided separates Distributed Energy Resources and Energy Efficiency metrics by fuel type, reports metrics for Highly Impacted Communities separately as well as High, Medium and Low Vulnerable Populations separately, includes all public charging stations, and provides 2022 environmental metrics per data timelines.

Due to the timing for filing of this supplemental information, PSE has not incorporated the recent guidance provided in the Commission's Final Order No. 08 in Docket UE-210795 into the calculation of these metrics. The Commission's guidance will be incorporated into the reporting of metrics in next year's Annual Report.

If you have any questions regarding the filing, please contact me at (425) 456-2105.

Sincerely,

/s/ Susan E. Free
