Comments Dear Commissioners,
I am very concerned about climate change and the damage being done by the burning of fossil fuels. My husband and I are investing in solar panels for our home, in an effort to be part of the solution. Any excess beyond our needs will be taken by PSE. In return, I would like PSE to do their part and move to 100% renewable energy by 2025. All Colstrip plants need to close as soon as possible. Clean air is a basic human right!
