Dear Mr. Johnson:

The City of Spokane is reviewing Commission Staff ("Staff") and NW Energy Coalition ("NVEC") comments on the City's Petition for a Declaratory Order ("Petition"). Among Staff's concerns was that the City did not provide adequate documentation about the WTE facility's original design. The City is compiling additional documents in response to Staff's comments and intends to submit a reply with those documents tomorrow, May 14, 2021. The City requests the Commission take the steps it deems necessary to consider the reply and additional documents, including taking up to an additional 90 days to issue a declaratory order pursuant to WAC 480-07-930(5)(c).

Thank you,

Benjamin A. Mayer
