The long-term plan and intent to continue to utilize the Coalstrip coal plant in Montana until 2035 is unacceptable to me and the "GREEN" sustainability of the Pacific Northwest.

More importantly, I am against the plan that they sacrifice the wellbeing of public communities regarding the fracking operations that will place the safety of residents in harm's way, disregard ratepayers monies, and Puyallup Tribal Lands, including our Pristine waterways, for the sake of a liquefied natural gas (LNG) Tacoma Terminal as well as their plan to build other newly planned fracked gas plants in the region.

PSE sends flyers in my monthly bill that eludes to them being "Green", with our environment in mind. This is fraud. Much like the tobacco industry's requirement to post health warnings in their products, PSE should also be required to be transparent with their fossil fuel consumption.

Did you know that PSE CEO Kimberly Harris is also the CHAIR of the Board of Directors of the American Gas Association? The AGA is a fossil fuel advocacy group that has aggressively pushed new fracked gas plants and pipelines around the country despite opposition from the people?

I adamantly request that you wholesale reject any plan that is not a path to a 100% Clean Energy Future.

Thank you for your time,
Suzen Searle
Proud Pacific Northwest Resident
I care about the area I live and work and play in.
I pay taxes, and I vote.
