Steven V King, Executive Director
Washington Utilities and Transportation Commission

Dear Mr. King,

I am both a utilities customer of Avista and a share holder of Avista stock. I write to you to present my concerns about Avista's partial ownership of two coal fired power plants in Montana. Further to learn that a full 20 percent of their electric power supply to the inland northwest comes from these coal fired plants is very discouraging.

I am unclear just what the WUTC's role is in relation to Avista's twenty year Resource Plan but I am thankful that your organization is accepting comment on this issue. Thank you for the opportunity to comment.

Sincerely,

David W King
