

**Bench Request No. 1.:**

*Please provide in the same format as Melissa Cheesman's Exhibit No. MC-6, restated and pro forma results of operations incorporating each party's uncontested and contested adjustments, including supporting schedules. Please provide the response in hardcopy and in Excel format with unlocked cells and formulas not converted to values to enable replication of the adjustment amounts.*

**Response To Bench Request No 1. by Waste Control Inc.:**

Please see attached pro forma results of operations and additional spreadsheets supporting the document. Note as well that September 2014 accounting and legal fees are not included in the attached, particularly out of concern that the Company not be portrayed as providing yet another successive pro forma results of operations. However, we would anticipate providing an update to the Commission of all cumulative rate case costs and fees, including any revised pro forma results of operations at the conclusion of the briefing in this proceeding, unless directed otherwise.
