

Docket UT-140597  
PC Data Request Nos. 18 through 26 to CenturyLink  
Date: December 1, 2015

PC-26 With respect to Stacy Hartman's testimony at 14:4-7, please answer the following:

- a. Describe the status of the conversion of Washington PSAPs to NG911.
- b. Describe what still needs to be done to convert all PSAPs to NG911.
- c. How many Washington PSAPs have converted to NG911?
- d. Please identify the PSAPs that have made the conversion to NG911 and when each made the conversion.
- e. How many Washington PSAPs still need to make the conversion to NG911?
- f. Please identify the PSAPs that have not made the conversion to NG911.

**Response:**

- a. The conversion of Washington PSAPs to NG911 is in progress
- b. The state of Washington is currently able to provide NG911 service and CenturyLink can support IP to the Public Safety Answering Points (PSAPs); however for PSAPs to support IP functionality, they must purchase and implement new Customer Premises Equipment (CPE).
- c. 20 PSAPs have purchased and implemented new CPE.
- d. See Confidential Attachment to PC-26d.
- e. 41 PSAPs have not purchased or implemented new CPE
- f. See Confidential Attachment to PC-26f.

Respondent: Stacy Hartman
