

Embarq DR-3

Regarding Embarq DR 2: Please (1) provide all documents obtained by Comcast during the investigation(s), including documents provided by the directory publisher; (2) provide all documents regarding Comcast's conclusions or decisions that resulted from the investigation(s); and (3) specify the costs Comcast determined or assumed would be associated with providing its subscriber list information directly to a DL/DA provider.

Response

Comcast has received no documents from Donnelley. Other than privileged communications between Ms. Choroser and counsel, there are no documents resulting from the "investigation." Comcast has not attempted to estimate the costs associated with providing its subscriber list information directly to the literally hundreds of DL/DA providers that purchase such information from Embarq.

Responsible Comcast Official:

Beth Choroser
Senior Director of Regulatory Compliance
