RE:  Advice 21-02
Docket No. 21____
PacifiCorp’s 2022 Power Cost Only Rate Case

Consistent with 80.28.060, WAC 480-80-101 and WAC 480-80-105, PacifiCorp dba Pacific Power and Light Company (PacifiCorp or Company), submits the enclosed tariff changes as part of its Power Cost Only Rate Case (PCORC) to become effective on January 1, 2022. The proposed new tariff sheets are contained in Exhibit No. RMM-5 accompanying this filing. In accordance with WAC 480-07-510(2), the proposed new tariff sheets are also provided in legislative format. The PCORC is a method by which PacifiCorp may update rates for changes in its variable power costs, and this filing was described and approved by the Washington Utilities and Transportation Commission (Commission) in its final order in PacifiCorp’s most recent general rate case to reset the net power cost (NPC) baseline.1

Tariff Revisions

First Revision of Sheet No. 15.1  Schedule 15  Outdoor Area Lighting Service
First Revision of Sheet No. 16.1  Schedule 16  Residential Service
First Revision of Sheet No. 17.1  Schedule 17  Low Income Bill Assistance Program—Residential Service Optional for Qualifying Customers
First Revision of Sheet No. 19.1  Schedule 19  Residential Service – Time of Use Pilot
First Revision of Sheet No. 24.2  Schedule 24  Small General Service
First Revision of Sheet No. 29.1  Schedule 29  Non-Residential Time of Use Pilot
First Revision of Sheet No. 36.2  Schedule 36  Large General Service—Less than 1,000 KW
Second Revision of Sheet No. 40.1  Schedule 40  Agricultural Pumping Service

The baseline level of NPC embedded in PacifiCorp’s electric rates was established through the Commission’s final order in PacifiCorp’s most recent general rate case in Docket UE-191024 et. al. PacifiCorp’s PCORC filing submitted with this letter seeks approval of a new, adjusted baseline for NPC based upon projected normalized power costs for the proposed rate year beginning January 1, 2022. Overall, PacifiCorp proposes to increase electric rates $13.1 million, or average increase of approximately 3.73 percent, to reflect the increase in forecast variable power costs.

As described in the testimony of Mr. Douglas R. Staples, the proposed NPC reflects an increase compared to the NPC baseline reflected in the revenue requirement in the Company’s most recent rate case.

All rate schedules for electric service are affected by the change. A typical residential customer using 1,200 kilowatt-hour per month will see an increase of $3.87 per month.

Accompanying this filing are the testimony and exhibits of Mr. Staples, Mr. Charles L. Tack, and Mr. Robert M. Meredith, which describe the elements of this filing, and the essential changes and drivers of PacifiCorp’s revised NPC baseline.
