To: 91 from Mr. May Caswell;

Quetta's request regarding

- 1- Customer service request for Senior Service
- 2- Customer expectations for quality & reliability
- 3- Requesting model for investigation
- 4- System performance & capacity issues
- 5- Replace infrastructure for time or repair times
- 6- Replace failing equipment & full replacement.

There are all sorts of good services. How  
ever, the services NOT a good service.

Many of Quetta's proposals are reasonable  
items that any business would place for  
any house hold or business that place  
for the market, as well as the unexpected.  
Quetta for some time has gotten on OK  
or not change every time.

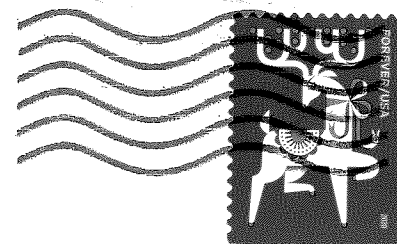

Let's put the budget crunch on  
their TABLE the time to start the business.

Regards,  
Dwight
