WASH. UT. & TP. COMM

Hi, try spring ab! I feel the latest rate increase aristo sent 5/7/21  
8.3% electric / 12.2% gas, is prohibitive at  
best, and I'm opposed. I'm not  
sure what "tax customer credit" is  
but I'm sure of what the rate  
increases mean, I'm opposed.  
Utilities should be deprivatized  
& become fully public, (civil)  
service entities I think!  
Private business should have no  
place with utility services.  
The object of private business  
interests is always ever greater  
profits, and that's not appro-  
priate for public service. ~~business~~
