DOCKET NO: Docket No. UT-003022
CASE DESCRIPTION: In the Matter of the Investigation into U S WEST's
Compliance with Section 271
INTERVENOR: Washington Bench
REQUEST NO: BCH INF-02-01

REQUEST:

With respect to Item (a) of Qwest's response to Bench Request no. 28, please confirm whether the example of a collocation forecast provided in Attachments A and B to the response is for the same project as the completed collocation application provided in Attachment C. If not, please explain why a completed collocation forecast for the same project reflected in Attachment C was not provided.

RESPONSE:

The example of the collocation forecast provided with Bench Request No. 28 is not for the same project as the example of the completed collocation application provided in Attachment C. In responding to this bench request, Qwest did not find any collocation forecasts with subsequent orders. Qwest did receive a few forecasts that were based on the merger agreements, however there were no forecasts for 2000 and no orders had been received yet for 2001. The collocation forecast and copy of the application order (actual order with the CLEC name redacted) were provided as examples of completed forms.
