Comments:

We love the Jolly Trolley. It fulfills the needs of what tourists and islanders want in a more up to date manner than does the other companies offer transit here on the island. It is far more convient. Plus, in the past, the other companies have left people stranded and blamed it on their schedule. In fact, I personally have had San Juan Transit simply isn't willing to change. The Jolly Trolley is far more innovative and should not be penalized for that. It is reminiscent of San Franciscos trolleys. Imagine if you couldn't jump on or off there! Please approve this. Thank you.
