PC Informal Data Request 4

#### **PC Informal Data Request 4**

##### **Actual Net Power Costs. Direct Testimony of Jack Painter, Exh. JP-1T at 7:4–6.**

- (a) Please provide the Washington Power Cost Adjustment Mechanism year-to-date results for the current deferral period of: January 1, 2021 through December 31, 2021 (through August of 2021). Include the current PCAM deferral balance for the deferral period of: January 1, 2021 through December 31, 2021 (through August 2021).
- (b) For each month in the response to subpart (a) where the difference between WIJAM Allocated Adjusted Actual NPC and Actual Collections of Base NPC is greater than 30 percent, please provide an explanation for the difference.

#### **Response to PC Informal Data Request 4**

- (a) PacifiCorp objects to this request as outside the scope of this proceeding, and not reasonably calculated to lead to the discovery of admissible evidence. Without waiving the foregoing objection, PacifiCorp responds as follows:

Please refer to the Company's response to WUTC Informal 18.

- (b) PacifiCorp objects to this request as overly broad, unduly burdensome, outside the scope of this proceeding and not reasonably calculated to lead to admissible evidence. PacifiCorp's 2020 power cost adjustment mechanism (PCAM) filing reviews actual net power costs (NPC) from calendar year 2020. PacifiCorp's 2021 PCAM filing, anticipated to be filed in June 2022, will review actual NPC from calendar year 2021.
