Dear Mr. King:

United Telephone of the Northwest d/b/a CenturyLink is forwarding for filing a new Access Services Tariff, WN U-11.

This filing implements certain aspects of Docket UT-130477 which became effective on January 9, 2014. Specifically, Docket UT-130477 allows United Telephone of the Northwest d/b/a CenturyLink to provide intrastate special access and private line services under a catalog rather than through a tariff. Consequently this new tariff, WN U-11, reflects the removal of these services and replaces WN U-10 in its entirety.

Customers were notified of the pending removal of intrastate special access and private line services from the WN U-10 tariff and posting of the applicable rate, terms and conditions for these services to a catalog in February. The change will be seamless and transparent to, and have no effect on customers. The rates, terms and conditions of service are not changing at this time.

CenturyLink respectfully requests that the new tariff which contains the remaining access services that will remain under tariff, become effective on April 1, 2014. If you have questions concerning this filing, please contact Mark Brinton – Regulatory Operations on (303) 992-5832.

Sincerely,

A handwritten signature in cursive script that reads "Mark Reynolds".
