Utility proposes Amendment No. 3 ISDN PRI Service Number 1439 ICB
(Contract Title)

Indicate below, or attach, an explanation of the reason the company requests permission to file the proposed provisions with less than required notice. Include the appropriate rule reference.

This amendment is for a period of twelve (12) months. The current contract expires on September 8, 2012. If this amendment is not made effective prior to the expiration date of the current agreement, service will be discontinued as the company can't provide service without an effective contract. This service as configured is not available under tariff. Due to recent changes with Frontier's contract processing, the current contract did not flow through in a timely manner resulting in the contract not being filed in time for the normal 30 day notice period to allow it to become effective. The Company is requesting the contract become effective on less than required notice in order to avoid a service disruption to this customer.
