**(100) Service Quality Improvement Reporting
Data Collection Form**

FCC Form 481
OMB Control No. 3060-0986/OMB Control No. 3060-0819
July 2013

<010> Study Area Code 520581

<015> Study Area Name BEAVER CREEK TELEPHONE COMPANY

<020> Program Year 2015

<030> Contact Name - Person USAC should contact regarding this data Delinda Kluser

<035> Contact Telephone Number - Number of person identified in data line <030> 5419324411 ext.

<039> Contact Email Address - Email Address of person identified in data line <030> dk1user@stelco.net

<110> Has your company received its ETC certification from the FCC? (yes / no) (yes) (no)

<111> If your answer to Line <110> is yes, do you have an existing §54.202(a) "5 year plan" filed with the FCC? (yes / no) (yes) (no)

If your answer to Line <111> is yes, then you are required to file a progress report, on line <112> delineating the status of your company's existing § 54.202(a) "5 year plan" on file with the FCC, as it relates to your provision of voice telephony service.

<112> Attach Five-Year Service Quality Improvement Plan or, in subsequent years, your annual progress report filed pursuant to 47 C.F.R. § 54.313(a)(1). If your company is a CETC which only receives frozen support, your progress report is only required to address voice telephony service.

Five-Year Service Quality Improvement Plan

Study Area Code	520581
Study Area Name	BEAVER CREEK TELEPHONE dba SKYLINE
Program Year	2015
Contact Name	DELINDA KLUSER
Contact Telephone Number	541 932 4411
Contact Email Address	dkluser@ortelco.net

Skyline Telecom Inc.
FIVE YEAR SERVICE QUALITY IMPROVEMENT PLAN

PREAMBLE

This 5 year improvement plan is a section of the Company's 2014 Annual Report. It is in compliance with § 54.313(a)(1) adopted in the FCC's USF/ICC Transformation Order (11-161). This document also incorporates further clarifications identified in subsequent Reconsideration Orders, as applicable, in effect prior to the filing of the Annual Report.

Skyline Telecom Inc. (Skyline) has carefully developed its improvement plan, concentrating on the delivery and continuation of a robust network which provides, at a minimum, the federally required voice and broadband connectivity as stipulated by regulatory rule. In certain situations (and as noted herein), the plan may also incorporate specific state requirements.

Skyline currently does not receive support from a State Universal Service Fund. A bill was submitted to the Washington State Legislature however it did not pass. Efforts are being made to submit further legislation but it is unclear at this time the outcome of such activity.

Skyline advises that this improvement plan has been carefully crafted, matching measured network deployment, improvement and quality service levels with known financial implications of the Transformation Order upon the company's support cash-flows. The uncertainty of such cash flows being received in the outer-years as a result of current and potential regulatory action on rural rate-of-return carriers has resulted in the Company taking a balanced yet realistic approach.

The environment in which the Company operates remains dynamic, not static. As a result, Skyline reserves the opportunity to modify its plan in response to further regulatory decisions as they are adopted, and their implication upon the Company's financial viability in providing the required services and service level quality becomes known.

Skyline will re-evaluate this plan on an annual basis. Action, however, may also be taken abruptly on the presented plan for both current and outer years in the event of evolving

regulatory conditions and/or changes in technology (vendor)-driven support. All adjustments to the improvement plan in this document will be reflected and explained in subsequent annual reports.

OVERVIEW

Skyline, as an Eligible Telecommunications Carrier (ETC) provides Universal Service supported services to approximately 127 customers covering approximately 30 square miles.

Consistent with Commission requirements, this Service Quality Improvement Plan addresses only Skyline's regulated eligible telecommunications carrier operations.¹ A detailed description of Skyline's plans for the provision of the supported services in the five-year period starting with January 2015 is provided herein.

Per the Universal Service Administrative Company (USAC), for the calendar year 2013, Skyline received a total of \$561,834 (as of 05/29/14) in USF support funds. The breakdown of the funding for the year was:

- \$ 276,852 High Cost Loop Support,
- \$ (32,820) Local Switching Support-Prior Period Adjustment
- \$ 155,508 Connect America Fund-Intercarrier Compensation Support
- \$ 162,294 Interstate Common Line Support
- \$ 0 Safety Net Additive

All funds were used in 2013 to both: 1) maintain, upgrade, and improve the Company's network and, 2) cover its operating expenses and debt commitments as necessary to permit it to offer a high level of service for both voice and broadband throughout its service area.

IMPROVEMENT PLANS BY YEAR (2015-2019 inclusive)

Summary descriptions of network improvements planned for the next five years in accordance with Part 54.202(a)(1)(ii) and Part 54.313(a)(1) by year and by exchange are presented below. Detailed expenditures are summarized in the attached Excel worksheet (Attachment 1). Where available, area and subscribers impacted by the improvements are identified in the worksheet. Costs are broken out by voice and broadband service.

- Network improvement expenditures identify the cost to provide those services supported by the universal service funding mechanisms. When a project involves expenditures for both regulated and non-regulated services, the non-regulated investment costs have been removed. The Company estimates non-regulated costs using the appropriate allocation rules. Details of those costs are retained by the Company and available for inspection.
- Costs are reported only for those service areas in which the Company is authorized to receive USF funding.

Due to the current uncertainty of the amounts of support funds the company may receive in future years, Skyline advises the Commission that the deployment of specific network improvement

¹Per 47 C.F.R. § 54.314, federal USF support, "will be used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended." If investments or expenses are for service areas larger than the supported service areas, then allocations of the expenditures are required.

projects may be modified, and the meeting of projected service goals muted, to accommodate the actual amount of support that will be received.

BASELINE NARRATIVE

Skyline is an independent local exchange carrier providing telecommunications services in Snohomish and Okanogan Counties in the state of Washington. There are approximately 55 households in the Silverton exchange, over a geographic area of 10 sq. miles. The Mt Hull exchange has approximately 150 households over a 20 sq. mile geographic area.

The service territory in the Silverton area is largely National Forest. The central office location serves as the last commercial electric customer in the area. Most households have power provided by generator or possibly solar. All telephone equipment is located on a Federal Right-of Way. Strict regulations must be followed in order to place equipment or buildings in the area. This area receives a considerable amount of moisture each year resulting in lush vegetation. There are few subscribers that live in the area year round. Most of the area is enjoyed in the summer months by those wishing to escape the city and recreationalists. The area has one public and one private campground. RUS funding was used to build-out the network. Repayment of these loans comes from cash flows provided by support payments.

The Mt Hull exchange is located between Tonasket, Washington and the Canadian border. The climate is extreme between seasons. It is hot and dry in the summer while winter provides cold temperatures along with snow and ice. The area is composed of rolling grassy hills which become a fire danger in the summer and fall seasons. Most residents are low income with approximately 30 customers receiving Lifeline assistance.

Skyline serves its subscribers using a soft switch in both exchanges. Skyline was able to procure a fiber backbone earlier this year in the Mt Hull exchange bringing high speed DSL to the area. Subscribers served in this area may receive download speeds up to 6 MB with upload speeds up to 1.5MB.

The Silverton area is currently served by two T-1's. One T-1 provides essential voice services including 911, toll and operator services. The second T-1 provides DSL service with speeds of 512K download and 256K upload. At this time no other services can be procured for this area due to limitations at the meet point with the connecting carrier. All services are copper fed to the area.

The Silverton area does not experience competition from terrestrial nor wireless carriers. Due to the terrain, neither wireless nor satellite technology is an option.

While no terrestrial competitor offers voice and data service throughout the MT Hull service area, competition is limited to wireless carriers in the exchange. The toll network is fiber fed.

There are no public or private schools, hospitals or businesses in either exchange.

SUMMARY DISCUSSION OF PLANS BY YEAR

2015

Vehicles: In 2015 assuming support becomes more predictable and continuing to upgrade remains economically viable Skyline plans to replace one service truck. Because the Company's service area is so large, by necessity significant miles (an average of 30,000 annually) are put on service trucks in order to serve subscribers. To ensure the safety of employees as well as ensuring serviceable vehicles, the Company replaces most fleet vehicles every six years. The vehicle to be replaced in 2015 is expected to cost \$30,000.

Transmission: The Company expects to replace older, existing remotes with newer technology during 2015. The remotes to be replaced are in the Silverton exchange due to the extreme moist conditions. Once these cabinets are upgraded maximum broadband speeds of 3 MB upload and 10 MB download can be achieved if additional backbone can be secured. The estimated cost of these deployments is \$10,500.

General Expenditures: Skyline expects to spend \$4,500 in miscellaneous additions.

2016

DC Rectifier and Battery Upgrades: Skyline's policy is to upgrade emergency and backup power generation capabilities on a rotating basis. Battery life and years in service are evaluated each year and replacements are completed as necessary. Generators and batteries at each Central office and batteries at each DLC or remote are all considered. Rectifiers and inverters are also included. In 2016, assuming support becomes more predictable and continuing to upgrade remains economically viable Skyline has planned on replacing the generator in the MT Hull exchange. The budgeted amount is \$5,000.

Transmission: The Company expects to replace older, existing remotes with newer technology during 2016. The remotes to be replaced are in the MT Hull exchange. Once these cabinets are upgraded maximum broadband speeds of 3 MB upload and 10 MB download can be achieved. The estimated cost of these deployments is \$20,000.

General Expenditures: In 2016 the Company expects to spend \$3,000 in miscellaneous additions.

2017

DC Rectifier and Battery Upgrades: Skyline's policy is to upgrade emergency and backup power generation capabilities on a rotating basis. Battery life and years in service are evaluated each year and replacements are completed as necessary. Generators and batteries at each Central office and batteries at each DLC or remote are all considered. Rectifiers and inverters are also included. In 2017, assuming support becomes more predictable and continuing to upgrade remains economically viable Skyline has planned on replacing the generator in the Silverton exchange. The budgeted amount is \$5,000.

General Expenditures: In 2017 the Company expects to spend \$3,000 in miscellaneous additions.

2018

General Expenditures: In 2018, assuming support becomes more predictable and continuing to upgrade remains economically viable Skyline the Company expects to spend \$7,000 in miscellaneous additions.

2019

General Expenditures: In 2019, assuming support becomes more predictable and continuing to upgrade remains economically viable Skyline the Company expects to spend \$7,000 in miscellaneous additions.

54.313 Lifeline customers MOU and additional toll charges

Lifeline subscribers receive the same residential service as a regular subscriber, but at a reduced monthly recurring rate. Thus, lifeline subscribers have an unlimited number of local calling minutes. As for toll, lifeline subscribers, similar to every Beaver Creek Telephone dba Skyline Telecom subscriber, are free to choose their own toll usage plans through IXCs that serve Beaver Creek Telephone dba Skyline Telecom.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0572-0031. The time required to complete this information collection is estimated to average 4 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Revision Date 2010

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH ASPECTS OF
CONTRACTUAL AGREEMENTS AND REGULATORY REQUIREMENTS FOR
TELEPHONE BORROWERS

The Board of Directors
Skyline Telecom, Inc.
Mt. Vernon, OR

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Skyline Telecom, Inc., which comprise the balance sheets as of December 31, 2013 and 2012, and the related statements of revenue and retained earnings, stockholders' equity and changes in cash flows for the years then ended, and the related notes to the financial statements, and have issued our report thereon dated February 19, 2014. In accordance with *Government Auditing Standards*, we have also issued our report dated February 19, 2014, on our consideration of Skyline Telecom, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. No reports other than the reports referred to above related to our audit have been furnished to management.

In connection with our audit, nothing came to our attention that caused us to believe that Skyline Telecom, Inc. failed to comply with the terms, covenants, provisions, or conditions of their loan, grant, and security instruments as set forth in 7 CFR Part 1773, *Policy on Audits of Rural Utilities Service Borrowers*, §1773.33 and clarified in the RUS policy memorandum dated February 7, 2014, insofar as they relate to accounting matters as enumerated below. However, our audit was not directed primarily toward obtaining knowledge of noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding Skyline Telecom, Inc.'s noncompliance with the above-referenced terms, covenants, provisions, or conditions of the contractual agreements and regulatory requirements, insofar as they relate to accounting matters. In connection with our audit, we noted no matters regarding Skyline Telecom, Inc.'s accounting and records to indicate that Skyline Telecom, Inc. did not:

Maintain adequate and effective accounting procedures;

Utilize adequate and fair methods for accumulating and recording labor, material, and overhead costs, and the distribution of these costs to construction, retirement, and maintenance or other expense accounts;

Reconcile continuing property records to the controlling general ledger plant accounts;

Clear construction accounts and accrue depreciation on completed construction;

Record and properly price the retirement of plant;

Seek approval of the sale, lease or transfer of capital assets and disposition of proceeds for the sale or lease of plant, material, or scrap;

Maintain adequate control over materials and supplies;

Prepare accurate and timely Financial and Operating Reports;

Obtain written RUS approval to enter into any contract for the management, operation, or maintenance of the borrower's system if the contract covers all or substantially all of the telephone system;

Disclose material related party transactions in the financial statements, in accordance with requirements for related parties in generally accepted accounting principles;

Record depreciation in accordance with RUS requirements (See RUS Bulletin 183-1, Depreciation Rates and Procedures);

Comply with the requirements for the detailed schedule of deferred debits and deferred credits; and

Comply with the requirements for the detailed schedule of investments.

This report is intended solely for the information and use of the board of directors, management, and the RUS and supplemental lenders and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.
