(509) 495-4267

Avista Dockets (Electronic Only) - AvistaDockets@avistacorp.com

2 This Motion is being filed coincident with Avista's general rate case filings in the above-captioned matter, filed on May 26, 2017. The Company filed revised tariff schedules to effect an increase in its base prices to its electric and gas customers, along with pre-filed direct testimony and exhibits in support of its proposed revisions. The Company identified information contained on a number of pages of these testimonies, exhibits, and workpapers as "Designated information is confidential per WAC 480-07-160".

3 The Commission's standard form of protective order should be sufficient to protect the
materials in Avista's filing that have been marked "confidential," as well as confidential
information that may be disclosed during the pendency of this case. Such designated materials
marked confidential contain information that might compromise Avista's ability to compete fairly,
or that otherwise might impose a business risk if disseminated without the protections provided in
the Commission's protective order.

4 The confidential information that Avista is disclosing can be classified as information
pertaining to contract prices, terms and conditions, risk management practices, and plant operation
data, and, as such, comprises valuable commercial information. In addition, Avista has a licensing
agreement with EPIS, Inc., for the use of their AURORA_{XMP} Electric Market Model software
package used by the Company to determine power supply costs, and can only be shared with
licensed users. Moreover, certain information is confidential in that some contract information is
prohibited, by the contract terms, from public disclosure. Moreover, customer-specific information
may be disclosed that should enjoy confidential protection.

5 Finally, it is anticipated that additional information will be requested of Avista in the
discovery process or otherwise provided during the evidentiary phase of this proceeding.

6 WHEREFORE, Avista respectfully requests that the Commission enter a standard protective
order in this case.

RESPECTFULLY SUBMITTED this 25th day of May, 2017.

David J. Meyer, Vice President and Chief Counsel
for Regulatory and Governmental Affairs
