² Although CenturyLink proposes in this application to discontinue a TDM-based voice service, this discontinuance is not a "technology transition," as defined in 47 C.F.R. § 63.60(i), as the affected customers can choose to switch to another TDM-based voice service provided by CenturyLink, as well as other alternatives offered by CenturyLink and its competitors.

Important Notice Regarding the Planned Discontinuance of Traditional Long Distance Services Provided by Global Crossing Telecommunications, Inc., a CenturyLink Company

Service Address: Service Address

Dear Contact,

At CenturyLink, our goal is to provide you with great quality and value while still remaining competitive. Changing market conditions require that we continually evaluate our prices, product offerings and infrastructure. Occasionally our evaluation directs us to make changes to some products or service.

This letter serves as formal notice that certain voice and data services provided by Global Crossing Telecommunications, Inc., a CenturyLink company, to your company throughout the Canoga Park, San Jose, and Santa Clara, California metropolitan areas; North Haven, Connecticut metropolitan area; Elmhurst, Chicago, Peoria, and Ursa, Illinois metropolitan areas; Battle Creek, Michigan metropolitan area; Wichita, Kansas metropolitan area; Lexington, Kentucky metropolitan area; Mashpee, Massachusetts metropolitan area; Cloquet, Eden Prairie, Minneapolis and Plymouth, Minnesota metropolitan areas; Seattle, Washington metropolitan area; or Algoma, Madison and Middletown, Wisconsin metropolitan areas will be discontinued on or after February 3, 2020 subject to approval of the Federal Communications Commission (FCC) and any other relevant state regulatory commissions. This action is necessary because the equipment associated with these services has been discontinued by the manufacturer and is no longer supported.

You are receiving this notice because you currently subscribe to long distance domestic and international calling (1+ or direct dialed, toll free or 800 services) over switched or dedicated facilities, which, subject to the approval of the FCC and any relevant state regulatory commissions, will be discontinued as a result of the planned decommission of certain switches. Long distance toll service includes all calls outside the local exchange and local toll service areas, calls that originate in one LATA and terminate in another, and international calls.

In order to maintain continuous service at your location following the proposed discontinuance, CenturyLink would like to work with you to migrate your existing service to a similar service provided by CenturyLink or, alternatively, a state-of-the-art platform that will provide your business with greater flexibility, simplicity, and efficiency.

Please be advised that unless you initiate a migration order or submit a disconnect request with CenturyLink, your service will be disconnected as early as February 3, 2020, provided that the FCC and any relevant state commissions approve the planned discontinuance. However, you must contact your account team or submit a disconnect order to billing for the disconnected service.

The CenturyLink point of contact for this transition will be your CenturyLink Account Manager. Your Account Manager is AM Name and can be reached at AM Phone, or by email at AM Email. If you would like to designate an operational contact with respect to this matter, please provide his or her contact information as soon as possible.

ATTACHMENT A

If you also subscribe to other services from CenturyLink, those services will NOT be impacted by the anticipated discontinuance of the affected services. Your other services will remain in place with no change to the applicable rates, terms, or conditions.

We would like to work with you immediately to update your service and continue our valued relationship, so please contact me as soon as possible to discuss our migration plan. We understand that this is an inconvenience, but we are confident that our team can seamlessly manage the entire process to provide your business with a better communications solution.

Sincerely,

AM Name

AM Email

The following statement is required by the FCC:

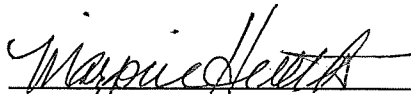

The FCC will normally authorize this proposed discontinuance of service unless it is shown that customers would be unable to receive service or a reasonable substitute from another carrier or that the public convenience and necessity is otherwise adversely affected. If you wish to object, you should file your comments as soon as possible, but no later than 15 days after the Commission releases public notice of the proposed discontinuance. You may file your comments electronically through the FCC's Electronic Comment Filing System using the docket number established in the Commission's public notice for this proceeding, or you may address them to the Federal Communications Commission, Wireline Competition Bureau, Competition Policy Division, Washington, DC 20554, and include in your comments a reference to the § 63.71 Application of Global Crossing Telecommunications, Inc.. Comments should include specific information about the impact of this proposed discontinuance upon you or your company, including any inability to acquire reasonable substitute service.
