UTIL. AND TRANSP.
COMMISSION

Hello,

We are receiving unsolicited emails from vendors telling us that we need to make changes to our 911 services and support due to the change from CenturyLink to Comtech for the 911 contract award. These vendors are telling us that changes on our part need to be made before May 8, 2019.

We have reached out to other school districts and to OSPI but nobody has information about what steps or action is required on our part.

Who can I contact for accurate information about the actions we need to take so our 911 service and support is not interrupted?

Thank you in advance for your help.

Randi
