Affirmative. Understand if that is not possible. Appreciate in advance the consideration.

Do you have a timeline on review and approval?

**Subject:** RE: UTC Grant

Hi Greg,

I understand that you wish to amend your grant application to indicate that you are requesting \$25,000 from the Grade Crossing Protective Fund to partially fund the project with the balance of the \$52,438.78 to be paid by Nippon Dynawave Packaging Company. Is this correct?

<b>Burlington Northern Santa Fe Railroad:</b> In kind contribution – Labor	\$10,000.00
<b>Nippon Dynawave Packaging Company: Materials Cost</b>	
- 60' Pandrol Crossing Panels w/10' ties	\$19,625.78
- One (1) set of ramps for the end of the crossing	\$ 310.00
- 96' Concrete crossing tops 136lb w/crossing lags	\$16,018.56
- Transition rails 136lb – 115 1/4lb rail	\$ 3,700.00
- Paving	\$11,785.00
- 100NT ballast	\$ 1,000.00
<b>Grade Crossing Protective Fund Request Total</b>	<b>\$52,438.78</b>

The other issue that is holding us up is the proposed project completion date. The current grant funding cycle ends June 30, 2021 with the state budget biennium. All current projects must be completed before June 30. It is not reasonable to expect this project to be completed in 60 days so I am assuming that we are going to hold this to the next round of grants. Is what you intended?

Mike.

Mike,

I wanted to follow up with you on my email of last Friday. Look forward to hearing from you.

Best regards,

Greg

**Subject:** UTC Grant

Mike,

Nippon Dynawave Packaging Company is grateful for the opportunity to be considered for the Washington Utilities and Transportation Commission (UTC), Grade Crossing Protective Fund (GCPF). If the UTC approves the application I have received tentative approval to move forward. I have been asked if WA UTC can fund \$25,000.00 vs \$20,000.00.

Look forward to your thoughts.

Best regards,

Greg
