Re: Oregon and Washington Data Distribution Center Administrative Services Agreement,
Oregon Public Utilities Commission Docket No. UT 142 and Washington Utilities and
Transportation Commission Docket No. UT 951081

Mr. Phillips:

Please be advised that in accordance with paragraph 5 of the subject agreement, Ziplly Fiber Northwest wishes to terminate its participation in the Agreement effective as soon as practicable but no less than 90 days from the date of this letter. Ziplly Fiber understands that the provisions in paragraph 5 are limited to operations of the Oregon Data Distribution Center.

With regard to the Washington Data Distribution Center, the provisions in paragraph 4 require for the allocation of compensation to be based upon the records produced by Centurylink and Ziplly Fiber (formerly Frontier Northwest Incorporated). In the more than two years of operations, Ziplly Fiber has never submitted records to the Washington Data Distribution Center yet has continued to be billed. We respectfully request to cease receiving billings for services no longer provided. It is our understanding that the need for the Data Distribution Center has been fully replaced with the implementation of Feature Group D reporting code through CIC Code 0000 Intralata Toll Traffic to the North American Numbering Plan Administrator which is required of all local exchange carriers.

By copy of this letter, Ziplly Fiber respectfully request that the Washington Utilities and Transportation Commission allow Ziplly Fiber to terminate its participation in the Washington Data Distribution Center agreement. Please feel free to contact me with any further questions or concerns.

Sincerely,

A handwritten signature in black ink, appearing to read "JEpley".
