WAC 480-92-016 Waiver. ~~(1) The commission may grant a waiver of any rule in this chapter when doing so is consistent with the public interest, the purposes underlying regulation, and sound public policy, and is not inconsistent with applicable statutes.~~

~~(2) To request a rule waiver, a site operator must file a written request with the commission identifying the rule for which a waiver is sought, and giving a full explanation of the reason for requesting the waiver.~~

Exemptions from rules in chapter 480-92 WAC. The commission may grant an exemption from the provisions of any rule in this chapter in accordance with WAC 480-07-110 (Exceptions from and modifications to the rules in this chapter; special rules.)

WAC 480-92-021 Definitions. The definitions contained in chapter 81.108 RCW and RCW 81.04.010 are incorporated by reference in this section. To the extent that any of the definitions in this chapter differ from statutory definitions, the statutory definitions shall control.

"Affiliate" means a person or corporation that is an "affiliated interest" as defined in RCW 81.16.010.

"Commission" means the Washington utilities and transportation commission.

"Effective rate" means the highest permissible rate, for the disposal of low-level radioactive waste, calculated as the lowest contract rate plus an administrative fee, if applicable, determined pursuant to RCW 81.108.040.

"Extraordinary volume" means volumes of low-level radioactive waste delivered to a site caused by nonrecurring events, outside normal operations of a generator, that are in excess of twenty thousand cubic feet or twenty percent of the preceding year's total volume at such site, whichever is less.

"Extraordinary volume adjustment" means a mechanism that allocates the potential rate reduction benefits of an extraordinary volume among all generators and the generator responsible for such extraordinary volume as described in RCW 81.108.070.

"Generator" means a person, partnership, association, corporation, or any other entity that, as a part of its activities, produces low-level radioactive waste.

"Inflation adjustment" means a mechanism that adjusts the maximum disposal rate by a percentage equal to the change in price levels in the preceding period, as measured by a common, verifiable price index as determined in RCW 81.108.040.

"Low-level radioactive waste" means waste material that contains radioactive nuclides emitting primarily beta or gamma radiation, or both, in concentrations or

quantities that exceed applicable federal or state standards for unrestricted release. Low-level waste does not include waste containing more than ten nanocuries of transuranic contaminants per gram of material, nor spent reactor fuel, nor material classified as either high-level waste or waste which is unsuited for disposal by near-surface burial under any applicable federal regulations nor naturally occurring or accelerator produced radioactive material.

"Maximum disposal rate" the maximum disposal is the rate a site operator may charge generators as provided in RCW 81.108.050.

"Site" means a location, structure, or property used or to be used for the storage, treatment, or disposal of low-level radioactive waste for compensation within the state of Washington.

"Site operator" means a low-level radioactive waste site operating company, which includes every corporation, company, association, joint stock association, partnership, and person, their lessees, trustees, or receivers appointed by any court whatsoever, owning, operating, controlling, or managing a low-level radioactive waste disposal site or sites located within the state of Washington.

"Subsidiary" means any company in which the low-level radioactive waste company owns directly or indirectly five percent or more of the voting securities.

"Volume adjustment" means a mechanism that adjusts the maximum disposal rate in response to material changes in volumes of waste deposited at the site during the preceding period so as to provide a level of total revenues sufficient to recover the costs to operate and maintain the site.

WAC 480-92-050 Reporting requirements—Annual report. An annual report is an end-of-the-year summary of financial and operational activity that each site operator is required to file with the commission.

(1) Each year the commission provides an annual report form and instructions to each site operator at its address of record. Failure to receive the form does not relieve a company of its obligation to complete and file its annual report. A site operator that does not receive an annual report form must contact the commission to request a copy of the form.

(2) A site operator must file a complete, accurate annual report showing all requested information by May 1 of the succeeding year. Information provided on the annual report must agree with source documents maintained at site operator offices. The commission will distribute an annual report form to site operators each year. The site operator must complete the form, file it with the commission, and pay regulatory fees for the preceding calendar year by May 1.

~~A site operator may request in writing prior to May 1, an extension of time to file its annual report, stating the reasons for the request and the extension date. The commission will not grant extensions for payment of regulatory fees.~~

WAC 480-92-X01 Reporting requirements—Special reports. (1) Affiliated interests—Contracts or arrangements. At least five business days before the effective date of any contract or arrangement described in RCW 81.16.020, each site operator must file a verified copy or a verified summary, if unwritten, of contracts or arrangements with any affiliated interests. At least five business days before the effective date of any modification or amendment, the site operator must file verified copies of the modifications or amendments to the contracts or arrangements. If the contract or arrangement is unwritten, the site operator must file a verified summary of any modification or amendment. The commission may institute an investigation and disapprove the contract or arrangement if the commission finds the site operator has failed to prove that it is reasonable and consistent with the public interest.

(2) Transferring cash or assuming obligations.

(a) At least five business days before a site operator or the subsidiary of a site operator transfers cash to any of its affiliates or subsidiaries or assumes an obligation or liability of any of its affiliates or any of its subsidiaries, the site operator must report the amount and the terms of the transaction to the commission if:

(i) A single transaction amount exceeds five percent of prior calendar year gross operating revenue; or

(ii) Cumulative transactions with all subsidiaries and affiliates, including anticipated transactions, for the prior twelve months exceed five percent of prior calendar year gross operating revenue.

(b) The reporting requirement in this section does not include payments for sweep and cash management accounts. The foregoing provisions will have no application to sweep and cash management account transfers used to automatically transfer funds received by a subsidiary as part of the customary and routine cash management functions between the subsidiary and parent.

(3) Affiliated interest and subsidiary transactions report.

(a) By June 1 of each year, each site operator must file a report summarizing all transactions that occurred between the site operator and its affiliates, and the site operator and its subsidiaries, during the period January 1 through December 31 of the preceding year.

(b) The information required in this subsection must be for total company and for state of Washington. All reports must be on forms provided by the commission. The report must include a balance sheet, an income statement, and a corporate

organization chart of the company and its affiliates and subsidiaries. In addition, the report must contain the following information for each affiliate and each subsidiary that had transactions with the site operator during the preceding year:

(i) A description of the products or services to or by the site operator and its affiliates, and the site operator and its subsidiaries;

(ii) A description of the pricing basis or costing method and procedures for allocating costs for such products or services, and the amount and accounts charged during the year;

(iii) A description of the terms of any loans between the site operator and its affiliates and the site operator and its subsidiaries and a listing of the year-end loan amounts and maximum loan amounts outstanding during the year;

(iv) A description of the terms and maximum amount of any obligation or liability assumed by the site operator for any affiliate or subsidiary;

(v) A description of all transfers of cash between the site operator and its affiliates and its subsidiaries including the amount transferred;

(vi) A description of the activities of the affiliates and subsidiaries with which the site operator has transactions; and

(vii) A list of all common officers and directors of the affiliate and subsidiary companies and the site operator along with their titles in each organization.

(c) The site operator is obligated to file verified copies of affiliated interest contracts and arrangements as stated in subsection (1) of this section.
