John,

I believe this belongs with the comments that you are compiling for this docket.

Thanks,
Joni

Proposed Closure of Hickox road railroad crossing - TR-070696 Docket #

To whom it may concern

I object to the closure of Hickox road railroad crossing as it is our major exit and entrance route to the freeway, Fire and retail services for our farm.

Blocking the road would bring farm equipment through downtown Mount Vernon. This would be difficult and burdensome for our farm. And very inconvenient

Also it is a logical second escape route in case of flooding where the other routes are along the dike and the slough.

Why can the railroad not close Stackpole road which is between freeway exits?
