Fixed Broadband Deployment - Uploaded Files

Note: Regardless of size, files can take a while to upload & process, especially at peak times. You can leave this page or even log out and return later without interrupting the upload.

Rows of data uploaded in multiple files – even files uploaded at different times – will be automatically combined. Therefore, if you wish to replace data contained in a previously-uploaded file, you must first remove that file below and then upload a new file.

Files with upload errors cannot be submitted! Any uploaded file with errors will need to be removed, corrected and re-uploaded in order to be submitted.

Fixed Broadband Subscription – Interactive Data Entry

For each census tract in which you have fixed broadband subscribers in service and for each service offering you sell, enter the total number of connections and the number of connections you provide to consumers. Rows must be unique by census tract and service offering (the State, County and Tract together uniquely define a particular census tract and the Technology, Downstream Bandwidth and Upstream Bandwidth together uniquely define a service offering).

Technology categories: Report any Ethernet over fiber connections as "Optical Carrier" and any Ethernet over copper connections as "Other Wireline." Do not report these connections in the "All Other" category.
