2.0 Unbundled Network Elements (UNE) General

The Agreement is amended as follows:

2.0.A Whether a high capacity loop or high capacity transport UNE is unavailable, and the date upon which it becomes unavailable, based on non-impairment wire center designations have been or will be determined by the Commission in a Wire Center Docket. The Parties will follow any procedures established by the Commission in the Wire Center Docket with respect to exchange of data and Confidential Information and updating the Commission-Approved Wire Center List. For Non-Impaired Facilities identified using the initial Commission-Approved Wire Center List, CLEC will not order an unbundled DS1 or DS3 Loop or an unbundled DS1, DS3 or Dark Fiber transport circuit when the order would be restricted based on the Wire Center designations identified on the applicable Commission-Approved Wire Center List. Regarding ordering after any additions to the initial Commission-Approved Wire Center List, see Section 2.0.F of this Amendment.

2.0.A.1 Effective Dates.

2.0.A.1.1 **July 8, 2005**: The Effective Date of Non-Impairment Designations filed in 2005 after Qwest's initial February 18, 2005 filing and identified in the final column of Attachment A shall be July 8, 2005.

2.0.A.1.2 **Thirty (30) Days After the Effective Date of the Settlement Agreement in the Wire Center Docket**: The Effective Date of Non-Impairment Designations for the Denver East and Colorado Springs Main Wire Centers shall be 30 days following the Effective Date of the Commission order approving the Settlement Agreement in the Wire Center Docket.

2.0.A.2 Transition periods. A transition period allows CLEC to transition away from use of UNEs where they are not impaired. The transition plans described in this Section apply only to the embedded End User Customer base. During the applicable transition period, CLEC will retain access to the UNE at the terms described in this Section.

2.0.A.2.1 For a 12-month period beginning on March 11, 2005, any DS1 Loop UNEs, DS3 Loop UNEs, DS1 Dedicated Transport UNEs, and DS3 Dedicated Transport UNEs that CLEC leases from Qwest as of that date, but which Qwest is not obligated to unbundle, shall be available for lease from Qwest at a rate equal to the higher of (1) 115% of the rate CLEC paid for the element on June 15, 2004, or (2) 115% of the rate the Commission has

established or establishes, if any, between June 16, 2004, and March 11, 2005, for that element.

2.0.A.2.2 For an 18-month period beginning on March 11, 2005, any Dark Fiber Loop UNEs and Dark Fiber Dedicated Transport UNEs that CLEC leases from Qwest as of that date shall be available for lease from Qwest at a rate equal to the higher of (1) 115% of the rate CLEC paid for the element on June 15, 2004, or (2) 115% of the rate the Commission has established or establishes, if any, between June 16, 2004, and March 11, 2005, for that element.

2.0.A.2.3 For Non-Impaired Facilities identified using the initial Commission-Approved Wire Center List, CLEC will convert such Non-Impaired Facilities according to the timeframes identified in this Section 2.0.A.2.3. Qwest and CLEC will work together to identify those circuits impacted by such a change.

2.0.A.2.3.1 When the Commission has approved additional DS1 and DS3 loop or high capacity transport UNE non-impairment designations as described in Section 2.0.A for the initial Commission-Approved Wire Center List, CLEC will have ninety (90) days from the effective date of the order in which the Commission approves the initial Commission-Approved Wire Center List to transition the applicable Non-Impaired Facilities to an alternative service.

2.0.A.2.3.2 When the Commission approves additional Dark Fiber transport non-impairment Designations as described in Section 2.0.A for the initial Commission-Approved Wire Center List, CLEC will have one-hundred and eighty (180) days from the effective date of the order in which the Commission approves the initial Commission-Approved Wire Center List to transition to an alternative arrangement.

2.0.B Upon receiving a request for access to a high capacity loop or high capacity transport UNE, Qwest must immediately process the request. Qwest shall not prevent order submission and/or order processing (such as via a system edit, or by requiring affirmation of the self-certification letter information through remarks in the service request, or through other means) for any such facility, unless the Parties agree otherwise in an amendment to the Agreement. Regarding ordering with respect to the initial Commission-Approved Wire Center List, see Section 2.0.A, and regarding ordering after any additions are made to the initial Commission-Approved Wire Center List, see Section 2.0.F. For changes of law, the Parties agree that the change of law provisions contained in the Agreement will apply.

2.0.C Intentionally Left Blank.

2.0.D For high capacity loops and high capacity transport UNEs, Qwest will for a period of at least three (3) years from the effective date of a Commission order approving the Settlement Agreement in a Wire Center Docket, assess an effective net non-recurring charge of \$25 for each facility converted from a UNE to an alternative service arrangement, as shown in Exhibit A to this Amendment. Qwest may assess a non-recurring conversion charge in excess of \$25 so long as Qwest provides a clearly identified lump sum credit within three (3) billing cycles that results in an effective net non-recurring charge of \$25. No additional non-recurring charges apply, other than OSS non-recurring charges if applicable. Qwest shall not impose any recurring or nonrecurring OSS charges unless and until the Commission authorizes Qwest to impose such charges and/or approves applicable rates at the completion of appropriate cost docket proceedings.

2.0.D.1 The Parties may disagree as to the amount of the applicable non-recurring charge after three years from the Effective Date of the Settlement Agreement, and each Party reserves all of its rights with respect to the amount of charges after that date. Nothing in this Agreement precludes a Party from addressing charges after three years from the Effective Date of the Settlement Agreement. A different non-recurring charge will apply, however, only to the extent authorized by an applicable regulatory authority, or agreed upon by the Parties and reflected in an amendment to the Agreement.

2.0.E For high capacity loops and high capacity transport UNEs, Qwest will also provide a clearly identified lump sum credit of \$25 per converted facility to CLEC, if CLEC has converted Non-Impaired Facilities pursuant to the TRRO before the effective date of a Commission order approving the Settlement Agreement in the Wire Center Docket and paid a \$50 non-recurring conversion charge. Qwest and the CLEC will work together to identify the applicable disconnected/converted circuit to ensure that the disconnected/converted circuit is included in the lump-sum credit described above. CLEC and Qwest agree to promptly provide available documentation necessary to verify the amount to be refunded pursuant to this Paragraph for any such disconnected circuits and will work in good faith in an effort to identify applicable circuits and resolve disputes, if any, through informal means prior to initiating any other rights or remedies. Available documentation may include, for example, copies of bills or identifying information such as circuit identification number, depending on the circumstances. CLEC will not be required to provide a copy of the disconnection order as a condition of including the disconnected circuit in the lump sum credit provided under this Paragraph.

2.0.F Additional Non-Impaired Wire Centers. When Qwest files a request(s) to add additional Wire Center(s) to the Commission-Approved Wire Center List, Qwest will follow the procedures for making such requests approved by the Commission in the Wire Center Docket. If the Commission adds the Wire Center(s) to the Commission-Approved Wire Center List, fifteen (15) Days after Commission-approval of addition(s) to that list, CLEC will no longer order impacted High Capacity Loops, high capacity transport UNEs, or Dark Fiber Loop and Dark Fiber Dedicated Transport UNEs in (for loops) or between (for transport) those additional Wire Centers. Qwest and CLEC will work together to identify those circuits impacted by such change.

2.0.F.1 Length of Transition Period for Additional Non-Impairment Designations.

2.0.F.1.1 When the Commission approves additional DS1 and DS3 loop or high capacity transport UNE non-impairment designations as described in Section 2.0.F, CLEC will have ninety (90) days from the effective date of the order in which the Commission approves the addition to the Commission-Approved Wire Center List to transition the applicable Non-Impaired Facilities to an alternative service.

2.0.F.1.2 When the Commission approves additional Dark Fiber transport non-impairment Designations as described in Section 2.0.F, CLEC will have one-hundred and eighty (180) days from the effective date of the order in which the Commission approves the addition to the Commission-Approved Wire Center List to transition to an alternative arrangement. Qwest and CLEC will work together to identify those circuits impacted by such a change.

2.0.F.2 Rate During Transition Period for Additional Non-Impairment Designations.

2.0.F.2.1 For a ninety (90) day period beginning on the effective date on which the Commission approves an addition to the Commission-Approved Wire Center List, any DS1 Loop UNEs, DS3 Loop UNEs, DS1 Dedicated Transport UNEs, and DS3 Dedicated Transport UNEs that CLEC leases from Qwest as of that date, but which Qwest is not obligated to unbundle, shall be available for lease from Qwest at a rate equal to 115% of the UNE rates applicable as of the effective date on which the Commission adds the Wire Center to the Commission-Approved Wire Center List.

2.0.F.2.2 For a one-hundred and eighty (180) day period beginning on the effective date on which the Commission approves an addition to the Commission-Approved Wire Center List, any Dark Fiber Dedicated Transport UNEs that CLEC leases from Qwest as of that date, but which Qwest is not obligated to unbundle, shall be available for lease from Qwest at a rate equal to 115% of the UNE rates applicable as of the effective date on which the Commission adds the Wire Center to the Commission-Approved Wire Center List.

2.0.F.2.3 The 115% rate described in Sections 2.0.F.2.1 and 2.0.F.2.2 will be applied to CLEC bills on the following bill cycle, and may be applied as a manual adjustment. Any manual bill adjustment for the time period for which the facilities were in place will be applied to each account based on the Billing Telephone Number (BTN) and/or Circuit (CKT) identification number per Billing Account Number (BAN) with an effective bill date as of the

effective date on which the Commission adds the Wire Center to the Commission-Approved Wire Center List.

2.0.F.2.4 The non-recurring conversion charge is addressed in Section 2.0.D of this Amendment.

2.0.F.3 Data. Qwest will file supporting data with the Commission when filing a request to obtain additional non-impaired designations added to the Commission-Approved Wire Center List. Qwest will also provide a copy of the supporting data pursuant to the terms of the applicable protective agreement/order to CLEC if CLEC has signed the applicable protective agreement/order (or is subject to any applicable standing protective order put in place by the Commission).

2.0. F.3.1 If Qwest relies upon Fiber-Based Collocators for its proposed non-impairment designation, the supporting data provided to CLEC will include at least the information required by the Commission in the Wire Center Docket.

2.0. F.3.2 If Qwest relies upon Switched Business Line Count data for its proposed Non-Impairment Designation, the supporting data provided to CLEC will include at least the information required by the Commission in the Wire Center Docket.

2.0.F.4 Methodology: The Parties agree to use the methodology for non-impairment or tier designations adopted by the Commission in the Wire Center Docket.

II. Effective Date and Reservation of Rights

This Amendment shall be deemed effective upon approval by the Commission; however, the Parties agree to implement the provisions of this Amendment upon execution.

The Parties, which are in negotiations regarding interconnection agreement language addressing terms of the TRRO, reserve their rights as to TRRO terms not set forth in this Amendment.

III. Further Amendments

Except as modified herein, the provisions of the Agreement, including the TRRO Amendment, shall remain in full force and effect. Except as provided in the Agreement, this Amendment may not be further amended or altered, and no waiver of any provision thereof shall be effective, except by written instrument executed by an authorized representative of both Parties.

IV. Entire Agreement

Other than the publicly filed Agreement, its Amendments, and the publicly filed Settlement Agreement in the Wire Center Docket, Qwest and CLEC have no agreement or understanding, written or oral, relating to the subject of this Amendment. The publicly filed Settlement Agreement in the Wire Center Docket is not intended to alter or amend the Agreement.

The Parties, intending to be legally bound, have executed this Amendment as of the dates set forth below, in multiple counterparts, each of which is deemed an original, but all of which shall constitute one and the same instrument.
