WUTC STAFF DATA REQUEST NO. 493:

Please confirm that design day was the COS methodology used to calculate the numbers presented in the table on page 9, line 12 in Exh. JAP-54T.

Response:

Puget Sound Energy confirms that the cost of service results used to calculate the results presented in the table on page 9, line 12 in the Prefiled Supplemental Rebuttal Testimony of Jon A. Piliaris, Exhibit JAP-54T, relied upon design day peak loads for the development of the demand-related allocation factors.
